If Purchaser establishes that the use of Cuprum Tokens under this Agreement is not legal in his jurisdiction, You should not use the Cuprum Tokens, not acquire them and should immediately stop using or possessing them if such case arises. Acquiring cryptographic Tokens for personal possession and exchanging them for other cryptographic Tokens will most likely continue to be scrutinized by various regulatory bodies around the world, which has so far given mixed reactions and regulatory impact. The legal ability of Cuprum Invest LTD to provide Cuprum Tokens and the Platform in some jurisdictions may be eliminated by future regulation or legal actions. In the event, it turns out with a high degree certainty that Cuprum Tokens are not legal in certain jurisdiction, Cuprum will either:

- a) cease operations in that jurisdiction, or
- b) adjust Cuprum Tokens and the Platform in a way to comply with the regulation should that be possible and viable.

## **RISKS ASSOCIATED WITH ETHEREUM**

23. Cuprum Tokens are based on Ethereum blockchain. As such, any malfunction, unintended function or unexpected functioning of the Ethereum protocol may cause the Cuprum Tokens to malfunction or function in an unexpected or unintended manner. Ether, the native unit of account of the Ethereum may itself lose value in ways similar to Cuprum Tokens, and also other ways. More information about the Ethereum is available at <http://www.ethereum.org>.

## **RISK OF UNFAVORABLE REGULATORY ACTION IN ONE OR MORE JURISDICTIONS**

The functioning of the Ethereum network and associated blockchain networks and Cuprum Tokens could be impacted by one or more regulatory inquiries or actions, including but not limited to restrictions on the use or possession of digital Tokens like Cuprum Tokens, which could impede or limit their existence, permissibility of their use and possession, and their value.

### **RISK OF THEFT AND HACKING**

25. Hackers or other groups or organizations may attempt to interfere with Your Third-party Wallet, the Website or the availability of Cuprum Tokens and Digital Assets in any number of ways, including without limitation denial of service attacks, Sybil attacks, spoofing, smurfing, malware attacks, or consensus-based attacks. ### **RISK OF WEAKNESSES OR EXPLOITABLE BREAKTHROUGHS IN THE FIELD OF CRYPTOGRAPHY**

27. Advances in cryptography, or technical advances such as the development of quantum computers, could present risks to cryptocurrencies, Ethereum, Cuprum Tokens, the Platform, which could result in the theft or loss of Cuprum Tokens.

### **RISK OF MINING ATTACKS**

28. As with other decentralized cryptocurrencies, Ethereum blockchain, which is used for the Cuprum Tokens, is susceptible to mining attacks, including but not limited to double-spend attacks, majority mining power attacks, "selfish-mining" attacks, and race condition attacks. Any successful attacks present a risk to the Cuprum Tokens, expected proper execution

and sequencing of Cuprum Tokens, and expected proper execution and sequencing of Ethereum contract computations in general. Despite the efforts of Cuprum Token and Ethereum Foundation, the risk of known or novel mining attacks exists. Mining Attacks, as described above, may also target other blockchain networks, with which the Cuprum Tokens interact with and consequently the Cuprum Tokens may be impacted in that way to the extent, described above.

#### **RISK OF LOW OR NO LIQUIDITY**

29. Even though there are currently online services available, which enable possibility of exchange of cryptographic tokens between themselves, and also, some of them enable exchange of cryptographic tokens for fiat money, there are no warranties and/or guarantees given that Cuprum Tokens will be listed or made available for exchange for other cryptographic tokens and/or fiat money, and no guarantees are given whatsoever with the capacity (volume) of such potential exchange. It shall be explicitly cautioned, that such exchange, if any, might be subject to poorly understood regulatory oversight, and Company does not give any warranties in regard to any exchange services providers. Purchasers might be exposed to fraud and failure. In any case, Company will not enable exchange of Cuprum Tokens for other cryptographic tokens or for fiat currency. Purchaser may not at any given time be able to acquire or dispose of its Cuprum Tokens due to lack of liquidity.

#### **RISK OF LOSS OF VALUE**

30. Value of Cuprum Tokens may fluctuate and their Purchasers might suffer loss in value of such acquired tokens. There might be different reasons that would cause unfavorable fluctuations of the value of the Cuprum Tokens.

#### **RISK OF MALFUNCTION IN THE ETHEREUM NETWORK OR ANY OTHER BLOCKCHAIN**

32. It is possible that the Ethereum network or any other network, to which the Cuprum Tokens are interacting with, malfunctions in an unfavorable way, including but not limited to one that result in the loss of Cuprum Tokens.

### **INTERNET TRANSMISSION RISKS**

33. Purchaser acknowledge that there are risks associated with using the Cuprum Tokens including, but not limited to, the failure of hardware, software, and Internet connections. Purchaser acknowledge that Cuprum Token shall not be responsible for any communication failures, disruptions, errors, distortions or delays You may experience when using the Website and Cuprum Tokens, howsoever caused.

### **UNANTICIPATED RISKS**

34. Cryptocurrencies and blockchains are new and untested technology. In addition to the risks set forth here, there are risks that Company cannot foresee and it is unreasonable to believe that such risks could have been foreseeable. Risks may further materialize as unanticipated.

### **INSUFFICIENT INTEREST IN CUPRUM TOKEN, THE PLATFORM AND CUPRUM TOKENS**

35. It is possible that Company, Cuprum Tokens or Platform will not be used by a large number of individuals, businesses and other organizations and that there will be limited public interest in the creation and development of its functionalities. Such a lack of interest could impact the development of the Platform and usage of Cuprum Tokens on it.

### **CUPRUM TOKENS AND THE PLATFORM, AS DEVELOPED, MAY NOT MEET THE PURCHASER'S EXPECTATIONS**

36. The Platform is currently under development and may undergo significant changes before release. The Purchaser's expectations regarding the form and functionality of the Platform and Cuprum Tokens may not be met upon release of new Website, deployment of the Platform, additional products and services for any number of reasons, including a change in the design and implementation plans and execution of the implementation of Cuprum Tokens.
